To schedule a private, live group webinar, call us at **949.833.8255**

Specialized Webinars covering these topics:

### Getting Started

- Application of Passy Muir® Swallowing and Speaking Valves
- Aerodigestive and Respiratory Changes Post Tracheostomy: A Comprehensive Review
- Tracheostomy: Procedures, Timing and Tubes
- Interdisciplinary Tracheostomy Team: Where Do I Start?
- Overcoming Barriers to Speaking Valve Use: Success Through Teamwork
- Passy Muir Valve FAQ Challenge

### Ventilator Application

- Ventilator Basics for the Non-Respiratory Therapist
- Ventilator Application of the Passy Muir Valve
- Interdisciplinary Decision Making with Patients Requiring Tracheostomy and Mechanical Ventilation

### Swallowing

- Early Intervention for the Ventilated ICU Patient: Use It or Lose It!
- Swallowing Safely: How You Breathe Matters
- Swallow Function: Passy Muir Valve Use for Evaluation & Rehabilitation
- Swallowing Management of the Tracheostomized Adult Patient - Case Presentations

### Pediatric

- Pediatric Tracheostomy and Use of the Passy Muir Valve
- Pediatric Ventilator Application of the Passy Muir Valve
- Candidacy for Speaking Valve Use: Journey to Success
- Passy Muir Valve: Keeping It On and Therapeutic Steps to Follow
- Baby Trachs: Passy Muir Valve in the NICU to Optimize Swallowing and Feeding
- Developing a Passy Muir Valve Protocol in the NICU
- Swallowing Management of the Tracheostomized Pediatric Patient - Case Presentations

### Special Populations

- Communication and Swallowing Management for ALS Patients with Tracheostomy
- Passy Muir Valve Use with the Head and Neck Cancer Population
- The Role of the Passy Muir Valve in the Pulmonary Management of the Patient with a Spinal Cord Injury
- Early Intervention in Persons with Minimally Conscious State & Tracheostomy

### Special Focus

- Home Care Tracheostomy Team: Navigating and Networking
- End of Life Care and Patients Communication in Critical Care Settings
- The Speaking Valve and Diaphragm Pacing: Changing Lives
- Yes You Can! Cardiopulmonary Rehabilitation for the Tracheostomy and Ventilator Patient
- There's More to Life than Breathing

## LIVE presentations covering these topics:

- Airway Management: It's a Team Sport
- Application of the Passy Muir Swallowing and Speaking Valve
- Assessing and Treating Dysphagia in the Patient with Tracheostomy: Impacting Quality of Life
- Assessment for Use of the Passy Muir Valve with the Pediatric Population: Non-Ventilator Use
- Basic Application of the PMV: An Interactive Discussion
- Basic Ventilator Application for the Non-Respiratory Therapist (Non-RT)
- Clinical Round Table: Answering Questions Related to Speaking Valve Use
- Dysphagia Basics following Tracheostomy in the Adult Patient: Considerations for the Non-Speech-Language Pathologist (Non-SLP)
- Ethics for the Healthcare Practitioner
- Mechanical Ventilation and In-Line Speaking Valve Use: Basic Information from the SLP Perspective
- Only the Basics: Introduction to Tracheostomy Tubes and No-Leak Speaking Valves
- Pediatric Application of the Passy Muir Valve: Considerations with Mechanical Ventilation
- Puzzle-solving: What are the Parts and Pieces to Valve Placement?
- Recognizing the Differences: Tracheostomy Tubes and Cuff Types
- Trachlore: Misconceptions, Misinformation, and Myths
- Ventilator Application of the No-Leak Valve: An Interactive Discussion
- Ventilator Application of the Passy Muir Valve

## Conversations on Aerodigestive Management Podcast

Join speech-language pathologist, Dr. Kristin King, as she interviews healthcare professionals who work with patients with complex aerodigestive health issues. From dysphagia to speaking Valve use, each episode will build on your clinical knowledge and provide support for working with this medically complex patient population. **Episodes offered for CEU credit.**

## Season One Episodes:

- Respiratory Muscle Training with Dr. Sapienza
- Critical Thinking for Healthcare Professionals with Ed Bice
- Updates to the book: Communication and Swallowing Management of Tracheostomized and Ventilator Dependent Individuals With Marta Kazandjian and Karen Dikeman
- Conversation on Palliative Care with Marta Kazandjian
- Both Sides of the Table: Part One – RT Perspective with Mike Harrell and Corey Mohnike
- Both Sides of the Table: Part Two – SLP Perspective with Laura Morgan
- Perspectives on Pediatric Care with Dawn Ayala and Erin March
- Working with Inhalation Burn Injuries with Dr. Nicola Clayton
- Implementing RMT with Brooke Richardson
- Communication: Psychological Impact with Dr. Amy Freeman-Sanderson
- Part One: Starting Research in a Clinical Setting with Dr. Amy Freeman-Sanderson
- Part Two: Research in Clinical Practice with Laura Brooks
- Both Sides of the Table – Living with Idiopathic Subglottic Stenosis
- Working within a Team with Jenny Opalinski
- Considerations for Competency with Brooke Richardson
- Trach Tube Selection and Valve Use with Buffy Buchanan and David Shane Harper
- DoC and Early Intervention with Ashley Lopez
- From Acute Care to Home Health with Carmin Bartow and Tiffany Oakes
- Basics of High Flow with Rachel O'Hare
- Using TTP with the Pediatric Population with Laura Brooks
- Working with the Pediatric Population with Tracheostomies with Laura Brooks and Walter Reeder

**Season Two**  
**Beginning January 2023**
